EXPERIENCE

Jr. Business Analyst Jan 2025 – Sep 2025
Movidu Technology Noida

- Worked with operations and analytics teams to prepare and update weekly MIS reports in Excel and Power BI, tracking over 2,000 student placement records, 50+ recruiter performances, and 15+ partner colleges, enabling data-driven placement strategies.
- Collaborated with the data science team to analyze 10,000+ candidate assessments from Movidu’s AI hiring tool, identifying key performance patterns that improved test reliability by 18% and increased pass rates by 12%, while creating interactive dashboards for 20+ partner institutions.
- Teamed up with account managers to build automated dashboards and clean 30,000+ data points from colleges and recruiters, enhancing report accuracy by 25% and reducing manual reporting time by 40% across departments.

Analytics Intern Sep 2024 – Dec 2024
Outlook Publishing (India) Pvt. Ltd. Remote

- Collaborated with a junior analyst in cleaning and validating 10,000+ subscriber activity records in Excel, fixing errors and duplicates, which improved the accuracy of reporting by 15%.
- Worked with CRM and marketing teams to segment readers based on engagement and subscription behavior, supporting personalized newsletter and promotional campaigns that increased click-through rates by 25%.
- Wrote and tested SQL queries (e.g., GROUP BY, CASE WHEN) to generate weekly reports on subscriber churn and engagement, providing actionable insights for editorial and marketing teams.

PROJECTS

Bank-Customer-Churn-Prediction | *Python* | [GitHub](#) Feb 2025 – Mar 2025

- Analyzed 10K+ bank customer records to uncover patterns influencing customer churn
- Built machine learning models (Logistic Regression, Random Forest) to predict churn with high accuracy
- Evaluated model performance using accuracy, precision, recall, and ROC-AUC metrics to ensure reliability

SQL Case Studies Portfolio | *SQL, Case Analysis* | [GitHub](#) Apr 2025 – May 2025

- Completed 15+ domain-diverse SQL case studies (finance, healthcare, retail), solving business questions using joins, window functions, CTEs, and subqueries
- Calculated key metrics such as customer retention, revenue growth, and churn rates to inform strategic insights
- Published all solutions in a well-documented GitHub repo to enable reproducibility and peer review

Tableau Dashboards | [Link](#) Jan 2025 – Feb 2025

- Netflix Data Analysis, Analyzing Employee Trends & Airbnb Market Analysis etc.
